Desis Decide

2024 SUMMIT & GALA

A cornerstone event within our community, Indian American Impact's annual Summit and Gala brings together hundreds of South Asian American changemakers and community leaders to engage in meaningful dialogue, celebrate achievements, and chart the course for our collective future.

Held less than six months ahead of the 2024 elections, this year's **Summit and Gala: Desis Decide** isn't just another gathering; it's a rallying cry for Indian and South Asian Americans to recognize the pivotal role we play in shaping the political landscape of our nation.

Just as in 2020, our community has the potential in states and races across the country to be the margin of victory, influencing outcomes and determining who represents us at every level of government.

What To Expect:

Our two-day Summit will feature dynamic keynotes and community-led presentations, workshops, and from dozens of South Asian organizations and leaders along several themes:

- Policy Advocacy
- Activism through Art
- Allyship in Action
- Salient Messaging
- Running for Office
- Community Organizing
- Sustainable Activism

The Gala will be a night of recognition and celebration, honoring individuals and organizations making significant contributions to advancing the interests of Indian and South Asian Americans.
